North Dragon Sails

North Sails have been developing Championship winning Dragon sails recently in conjunction with Petticrows and Poul Richard Hoj-Jensen. Below are the latest recommended designs.

Petticrows are the biggest dealer for North Dragon sails

### **Mainsail (A-10+) 2011 World Champion!**

The A-10+ Mainsail is a development for the new stiff Petticrows mast. This new mast is 10% stiffer than the standard Petticrows mast and the Borrensen mast. The sail is manufactured from a slight firm fabric to give a more stable easy to trim sail and much improved longevity. It's easy to trim characteristics make a fast sail in all conditions. The sail comes complete with vision windows, insignia, sail numbers, class royalty label, measurement and sail bag.

A-10+  
Cross Cut (Dacron 6.52 TPK)  
**GBP £1365.00**  
**Euro €1573.00**

### **Mainsail (A-7+)**

The A-7+ Mainsail is a further development of our famous A-7 Mainsail. The sail is now manufactured from a slightly firmer fabric than the A-7 giving a more stable sail and much improved longevity. It's easy to trim characteristics make a fast sail in all conditions and it is used to great effect by club sailors right up to world champions. The sail comes complete with vision windows, insignia, sail numbers, class royalty label, measurement and sail bag.

A-7+  
Cross Cut (Dacron 6.52 TPK)  
**GBP £1365.00**  
**Euro €1573.00**

### **Genoa (LJ-4) 2011 World Champion!**

### *Wind Range 0-11 knots*

The LJ-4 is our new light genoa and is a further development from the very popular LJ-3. This sail has rocked panels for better load distribution in the head, clew and tack. It is designed for use in wind speeds from 0-12 knots. The sail comes complete with vision windows, class royalty label, measurement and sail bag.

LJ-4

Cross Cut (Dacron 3.65 Polykote)

**GBP £1090.00**

**Euro €1256.00**

### **Genoa (MJ-8) 2011 World Champion!**

#### *Wind Range 6-18 knots*

This is our all purpose genoa developed in 2009 and a very popular choice for a single headsail programme. This sail also has rocked panels for better load distribution in the head, clew and tack. It is designed for use in wind speeds of 6-18 knots. The sail comes complete with vision windows, class royalty label, measurement and sail bag.

MJ-8

Cross Cut (Dacron 5.46 Polykote)

**GBP £1090.00**

**Euro €1256.00**

### **Genoa (MJ-8H) 2011 World Champion!**

#### *Wind Range 14-30 knots*

This genoa is our medium-heavy headsail, designed to the same flying shape as the MJ-8. The MJ-8H is made from fabric which stretches less and so keeps it's round entry and very straight aft section, ideal wind range is 14-30 knots. The sail comes complete with vision windows, class royalty label, measurement and sail bag.

MJ-8H

Cross Cut (Dacron 6.5 Polykote)

**GBP £1090.00**

**Euro €1256.00**

### **Spinnaker (CX-9) 2011 World Champion!**

This spinnaker is a further development of our CX-8 Spinnaker. The CX-9 has a much larger and more powerful top and made more elliptical to stabilize the leech. We have added 1.1 m2 from the head to the ½ girth measurement. This makes the CX-9 Spinnaker a very fast all-round spinnaker with it's maximum performance for 8 knots and up. It comes complete with sail numbers, class label, measurement and sail bag

## Spinnaker (CX-8)

### *Wind Range 0-12 knots*

The CX-8 Spinnaker is designed to the same flying shape as the CX-8R, however built in a full cross cut construction. This is our light airs sail for a 0-12 knot wind range. It comes complete with sail numbers, class label, measurement and sail bag
